VANDIS

Vandis On-Call & ChangeOps

Customizable to your unique needs

Vandis Managed Services combines high level engineering, intuitive and efficient process, and powerful tools to deliver the highest level of stability and control to your IT operations. Vandis will work with your team to make your network operations seamless and painless, so you can better focus on your strategic goals. We strive every day to ensure that your technology is enabling your business, not distracting from it.

Vandis OnCall provides companies with access to a remote support desk staffed by Subject Matter Experts (SME). Our SMEs are available for remote break/fix support and troubleshooting, as well as consultative and supplemental support for approved manufacturer technologies. **Vandis ChangeOps** serve as an extension of your team to define, execute, and test the day-to-day functions that happen in enterprise networks.

Why customers use Vandis On-Call with ChangeOps

- Access 24/7 service with response time SLA and Onsite Dispatch for verified critical incidents in supported areas

- Plan & schedule moves, adds, and changes with the Vandis Managed Services team

- Customized support based on your organization's unique needs
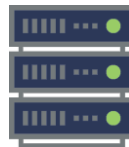

Supported Technologies:

Application Security

Firewalls

Load Balancing

Network Access Control

Network Security

Switching

Wireless

Why Vandis?
